

CANNULI'S TAKE A CAN DO ATTITUDE FOR STREETCAR SHOOTOUT

When it comes to racing 1800 horsepower Supercharged Sedans, Crossroads Racing boasts a mountain of experience and are vowing to take Willowbank Raceway by storm this Saturday when the team campaigns not one but two of these supercharged machines.

John & Paul Cannuli are taking a can do attitude for this weekends Powercruise Streetcar Shootout where the toughest "Pro Street" cars come out to prove who has Australia's fastest street registered car across the ¼ mile.

Running to strict guidelines and rules, the Streetcar Shootout is Australia's Premier drag racing event that caters for all different types of streetcars that run Naturally Aspirated, Turbocharged, Supercharged and Nitrous combinations.

"We've got both of the Crossroads Racing Torana's ready to go and we've really wound the wick up for this weekend."

"We race these types of cars because they still retain a lot of street appearance yet allow us to use race engines and racing driveline components." Cannuli said.

"My brother Paul is actually going to drive both cars this weekend if he feels up to it. He's been a bit sick lately and I gave him the opportunity to run my car as an incentive for him to get better. We'll have to see who pilots what as the Shootout gets closer." John further added.

Both of the Crossroads Racing cars are Holden Torana's however John's LX Hatchback has the goods over Paul's "UPON2" LH sedan.

Even though the 4 door has a much bigger engine than the 2 door... the Hatchback is much faster burning down the quarter mile blacktop at just under 7 seconds and at speeds in excess of 320kph (200mph).

Featuring in the Pro Street Outlaw class, the Hatchback Torana will be taking on Sydney's Ivan Tesic and his 6 second Twin Turbo V8 "Mr Mad" Torana this weekend.
