

CROSSROADS RACING MEGA TEAM SET TO SMOKE INGHAM

CROSSROADS RACING is a name that Burnout fans all over Australia are quickly getting to know as a real heavy weight in the world of car show and burnout entertainment and this month, they're headed to Ingham in Queensland's north for the *Ingham Car & Bike Extravaganza*.

"The CROSSROADS team has a stable of hard hitting supercharged weapons that not only look the goods, but they also perform insane burnout demonstrations as well." said team CEO John Cannuli.

John heads up the show with his purpose built supercharged 511ci Indy Maxx powered burnout Studebaker while his younger brother Paul, will pilot the supercharged 'UP ON2' 8 second Pro Street Holden Torana. Nudge Peacock's blown and injected 'SIR-08' UC Torana will be ripping it up as a part of the CROSSROADS action as will Shane Narayan's supercharged 'DEFECT' Monaro with its massive 22" wheel package. Another impressive CROSSROADS vehicle that the boys will be bringing with them to display is their 3500 horsepower - 5 second Top Alcohol Funny Car which reaches speeds over 250 miles per hour (402kph).

"This year alone, the CROSSROADS RACING B-Double Transporter has covered over 15,000kms travelling all over Australia performing burnout shows and it's testimony of the professionalism of my crew and team mates. It's a combination of hard work and love for what we do that helps makes it all happen. CROSSROADS RACING is about family and a group of mates who love to put on a hell of a show." John said.

"We've performed burnouts at Summernats in Canberra, Powercruise in Sydney, Brisbane and Darwin, we've drag raced at Western Sydney International Dragway (NSW) and Willowbank Raceway (QLD) but honestly, we're really looking forward to going to Ingham. The show is huge, the people are friendly and they absolutely love their Burnouts so we can't wait" added Cannuli.

While CROSSROADS RACING is about family and mates, it will be business as usual on the 25th, 26th & 27th of May at the *Ingham Car & Bike Extravaganza* as each driver sets out to impress and make new fans in NQ on their first visit to the region.

"Nudge's 'SIR-08' UC Torana is one of the nicest show cars around but to see him torture & destroy the rear tyres on the burnout pad is really something awesome. It's also unbelievable to see Shane skid up the 22 inch rims on the DEFECT Monaro." further added John.

The CROSSROADS RACING Burnout Show is one not to be missed and the people of North Queensland can expect to see the cars in action throughout a massive weekend of motoring that is the *Ingham Car & Bike Extravaganza*. You never know, you may even see them on the Cruise through town!!
